SILVER X FACT X BROOKINGS

Preferred Sex™ semen is produced with IntelliGen™ Technologies.

The IntelliGen™ Technologies process for sexed bovine genetics does not subject cells to the high pressures, electric currents and shear forces used in other sexed semen processes. The result is a sexed semen product that helps our customers maximize their profitability and reach their end goals in a fast and efficient manner. Look for the IntelliGen™ label for sires with Preferred Sex™ semen from this state-of-the-art technology.

DISCLAIMER OF WARRANTY AND LIMITATION OF LIABILITY

Availability of all semen is subject to change without notice. Semen is collected, processed and stored in accordance with sound recognized practices. Neither New Generation Genetics, Inc. (NGG) nor owners of bulls leased to NGG nor its employees or agents shall be liable after delivery for any injury or disease caused to any persons, animals or property through the use or handling of the semen. NGG does not guarantee semen to be free of genetic recessives. NGG does not guarantee the fertility capacity of any semen. No warranty of any kind is inferred except to sell and convey good title. Any other warranty is hereby disclaimed. Should a breach of any NGG warranty be deemed by applicable court of law, the purchaser's exclusive remedy shall be limited to replacement of semen or refund of payment at NGG's option and NGG shall not be liable for any consequential or additional damages or expenses.
