Preferred Sex™ semen is produced with IntelliGen™ Technologies.

The IntelliGen™ Technologies process for sexed bovine genetics does not subject cells to the high pressures, electric currents and shear forces used in other sexed semen processes. The result is a sexed semen product that helps our customers maximize their profitability and reach their end goals in a fast and efficient manner. Look for the IntelliGen™ label for sires with Preferred Sex™ semen from this state-of-the-art technology.

DISCLAIMER OF WARRANTY AND LIMITATION OF LIABILITY

Availability of all semen is subject to change without notice. Semen is collected, processed and stored in accordance with sound recognized practices. Neither New Generation Genetics, Inc. (NGG) nor owners of bulls leased to NGG nor its employees or agents shall be liable after delivery for any injury or disease caused to any persons, animals or property through the use or handling of the semen. NGG does not guarantee semen to be free of genetic recessives. NGG does not guarantee the fertility capacity of any semen. No warranty of any kind is inferred except to sell and convey good title. Any other warranty is hereby disclaimed. Should a breach of any NGG warranty be deemed by applicable court of law, the purchaser's exclusive remedy shall be limited to replacement of semen or refund of payment at NGG's option and NGG shall not be liable for any consequential or additional damages or expenses.

Your New Partner in Brown Swiss

Ready to elevate your breeding program to new heights within the Brown Swiss breed? Consider joining our PARTNER IN BROWN SWISS Genomic & Herd Mating program today! With just one easy step, connect with Jake Hushon in the eastern region or Scott Schugel in the west, and we'll handle everything from providing equipment and tissue vials to setting up your separate herd account with our genomic testing lab. This streamlined process empowers you to leverage genomics for trait and individual matings, accelerating your herd's progress.

As your partner, NGG will guide you through sample submission and interpretation, offering an optional in-house mating program tailored to your breeding goals. Plus, we're invested in your success financially, contributing to testing costs because we're committed to being your true PARTNER IN BROWN SWISS. Our aim is to help your herd thrive and potentially even develop bulls from your cattle, as demonstrated by our track record of introducing new cow families, prefixes, and top-tier bulls like CRAZY HORSE, TIME OUT & DESIGN over the past three years. If you're ready to take the next step, we're here for you. **Join us in shaping the future of Brown Swiss breeding together.**

A NEW YEAR BRINGS AN EXCITING NEW TEAM TO NEW GENERATION GENETICS

Stay on the lookout for new bulls, new programs and new world class events. We are eager and ready to serve you and are here to provide you with the absolute best in Brown Swiss!
